

**What is claimed is:**

1. A wound dressing comprising  
a moisture vapor pervious polyurethane matrix beveled from an especially central  
point of the wound dressing toward the edge.
2. The wound dressing of claim 1, wherein the moisture vapor pervious polyurethane  
matrix has been applied uniformly atop a carrier film.
3. A wound dressing comprising  
a carrier film atop which an adhesive layer has been applied uniformly, wherein  
there is disposed in the center of the adhesive layer a moisture vapor pervious  
polyurethane matrix, although the periphery of the adhesive layer is at least partially  
not covered by the polyurethane matrix.
4. The wound dressing of claim 3, wherein the polyurethane matrix is beveled from an  
especially central point of the wound dressing toward the edge of the adhesive layer.
5. The wound dressing of any of claims 1 to 4, wherein the carrier film comprises  
polyurethane, polyethylene, polypropylene, polyamide or polyester.
6. The wound dressing of any of claims 1 to 5, wherein the carrier film is between 60  
and 80  $\mu\text{m}$  in thickness.
7. The wound dressing of any of claims 1 to 6, wherein the adhesive layer comprises  
polyacrylate or rubber.
8. The dressing of any of claims 1 to 6, wherein the adhesive layer is between 35 and  
50  $\mu\text{m}$  in thickness in the edge region in particular.
9. The wound dressing of at least one preceding claim, covered over its entire width with  
an adhesive rejecting carrier material, such as siliconized paper, until use.

10. The wound dressing of at least one preceding claim, wherein the polyurethane matrix contains one or more active substances.
